HEINZ[®] YELLOW REEFER SERIES CAR #1

The H. J. Heinz Company, more commonly known as simply HEINZ, is an American food processing company that was founded by Henry John Heinz in 1869. With humble beginnings, Henry and friend Clarence Noble, began manufacturing horseradish in his father's basement. The company would later expand to include tomato ketchup in 1875 and eventually over 60 food products by the mid-1890's. HEINZ introduced its "57 Varieties" slogan in 1896 which was included on many of their very colorful billboard reefer cars. With a fleet of 700 cars, HEINZ was able to ship their product by rail to major markets throughout the US. These yellow sided refrigerator cars represent railcars painted throughout the late 1900s and through the 'teens. All cars carried the distinctive "Heinz 57" but each car advertised a different product. This is the first of six reefer cars offered in this series.

The Heinz trademarks are owned by
H.J. Heinz US Brands LLC and
Kraft Heinz Canada ULC and are
used under license.

New N & Z Farm-to-Table Reefer Series

Accepting Pre-Orders thru September 30th

Moving perishables by rail began in the mid 19th century in an effort to move dressed meats beyond local urban markets. As technology advanced, by the early 20th century, anything could be quickly transported from farms to kitchens across the country. These wood-sided ice reefers were dominant revenue earners for almost 100 years until mechanical refrigeration became practical, and they also served as rolling billboards for the companies. Our series will feature twelve unique and colorful 'produce' reefers. Contact your dealer to place your order today.
