Accepting Orders for August Releases Beginning August 4th • All Prices U.S. Dollars

Denver & Rio Grande Western® Road Name Ogden Canon

This heavyweight modernized business car is green with gold lettering and runs on 6-wheel passenger trucks. It was used on trains in the heart of the Rockies, such as the famous "Prospector." D&RGW was formed in 1870 and operated the highest mainline railroad in the United States through the Colorado Rockies at an altitude of 10,240 feet.

DRGW® is a registered trademark of the Union Pacific Railroad.

#144 00 810...\$29.95

Maine Central Road Number MEC 710

This 39' single dome tank car is black with orange lettering and runs on Bettendorf trucks. Built in the 1920s for a leasing company, this 10,000-gallon tank car was later obtained and used by Maine Central in MOW service through the 1970s and belonged to a 13-car series. Maine Central was founded in 1862 and was one of the largest railroads in New England, with over 1,000 miles of track by the 1970s.

#065 00 056...\$27.70

Canadian Pacific Road Number CP 410010

This 40' standard box car with single door, full ladders and no roofwalk is brown with white lettering and runs on Bettendorf trucks. Built in 1953 as CP 265050, it was converted into an icebreaker/clearance device car in 1984 and renumbered 410010, within a group of 10 similar cars. To prevent impact damage to revenue railcars and lading, this car featured large vertical frames to physically clear icicles from the inside of tunnels and low bridges. The phenomenon is more prevalent during spring and fall, when freeze/thaw cycles allow for the formation of large and damaging icicles.

NEW 60' Ribside High-Cube

National Steel Car company was one of three manufacturers enlisted by Trailer Train Company to build their new fleet of 60' excess height boxcars in 2003. These heavy-duty cars featured double plug doors giving the customer a 12' opening to easily load everything from paper products, appliances to consumables. Referred to as "Super Duty" cars, they join the growing fleet of "Plate F" cars providing higher capacities for shippers looking to streamline their deliveries. Our model will feature fine mold detail and micro-fine printing, separate end ladders and brake rod detail, etched-metal brake platforms and painted underframe. The car will also have correct ride height with body-mounted couplers and all-new 36" metal wheels!
