Saturn
Road Name: *The Ringed Planet*

Solar System Series!

These 60' excess height box cars with modified sides are black with yellow sides and run on Barber Roller Bearing trucks. Saturn is the sixth planet from the Sun and the second-largest in the Solar System. It's a gas giant with amazing rings made of ice and rock, and an atmosphere with winds over 1,000 mph. It has over 80 moons.

Denver & Rio Grande Western[®]
Road Numbers 60927/60930

These 50' standard box cars with plug door and no roofwalk are aluminum, orange and black and run on Barber Roller Bearing trucks. Built in 1965 for D&RGW, these cars featured innovations which simplified loading and unloading, like movable bulkheads and side wall fillers, and continued to serve through the mid-1980s. They also featured hydracushion underframes, giving the car a smoother ride during rough coupling.

Penn Central
Road Number PC 277058

This 60' excess height box car with single door and rivet sides is green with black and white lettering and runs on Barber Roller Bearing trucks. Built in 1968 for Penn Central, and used to transport bulky but relatively lightweight commodities such as household appliances, it features a cushioned underframe to reduce cargo damage. These cars also had DFB loaders and movable bulkheads to ease loading and unloading.

#104 00 060...\$32.95

Milwaukee Road
Road Number 01603

This 36' riveted steel caboose with offset cupola is orange with black lettering and runs on Bettendorf Swing Motion trucks. Belonging to a series of 16 cars, these cabooses were unique for Milwaukee Road, being the only steel-sided units in service. Built in 1929, they lasted an exceptionally long time, and some were used through 1977 when Milwaukee filed for bankruptcy.

#100 00 480...\$31.95

Garrett Wine Company
Road Number GWCX 11

This 36' wood sheathed ice reefer, with modern underframe is white with black lettering and runs on Arch Bar trucks. Built by Berwick in 1912, this insulated car contained glass tanks to carry wine from Garrett Wine Company to distributors. Garrett Wine Company was established in 1835 in North Carolina, and famously used the Scuppernon grape variety in their "Virginia Dare" product.

Accepting Orders for November Releases Beginning November 3rd • All Prices U.S. Dollars

Great Northern Road Number GN 74436

This 40' drop bottom gondola with wood chip extension is black with white lettering and runs on Bettendorf trucks. Built in 1937 as a standard service car, this 40' gondola was later upgraded for woodchip service. The car was rebuilt and side extensions were added to accommodate the bulky but lightweight load.

WITH SUGAR BEET LOAD

#084 00 070...\$29.95

CSX® Road Number CSXT 903968

This 31' bay window caboose is grey with yellow ends and black lettering and runs on Bettendorf Swing Motion trucks. Built for Baltimore & Ohio as a C-27 class car, this caboose was eventually obtained by CSX through mergers. Even though most cabooses have been retired for decades, some still have limited use on specific areas of the CSX system. This caboose was still in service in 2014.

Pennsylvania Railroad
Road Numbers PRR 605360/605369

These 40' standard box cars with single door and no roofwalk are brown with white lettering and run on Bettendorf trucks. Converted from X29 box cars in 1959, these improved X296-class cars were put into general service for Pennsylvania, but they did not have loading equipment some other upgraded cars had installed. Serviced again in 1968, these cars were then nearing the end of their revenue service lives and relegated to less important shipments.

CSX® Tie Loader 3-Pack

Used by CSX Transportation in a maintenance of way capacity, these gondolas are seen throughout the CSX rail network. CSX uses an excavator with a grapple to lift railroad ties in and out of the gondolas, replacing rotted ties with fresh ones. Extensions have been added to the sides of the gondolas to increase their capacity for railroad ties.

*The tie loader is made of 3D printed and resin cast parts with an etched-metal claw and includes cab window decals. Loader parts come cleaned, unassembled and unpainted. Ramp will be laser-cut laser board, painted yellow and unassembled. Gondola side extensions will be laser board and decorated to match weathered gondola, but not installed. Two rail tie loads will be resin cast and decorated.

N TTX Weathered Wreck Recovery Pack

Accepting Pre-Orders through November 30th

TTX used some of their flat cars for general purpose bulk loading of construction equipment, industrial machinery, or in this case, wrecked railcars. These cars had deck mounted pedestals and specialized retainment devices that allow railroads to safely load, transport, and unload damaged railcars and their trucks, increasing the likelihood of repair or component salvage.

Well car will come with modeled physical damage on one end. Resin chocks for trucks will come painted, but not installed. Etched-metal chain tie-downs can be cut to desired length.
