## The Moon Road Name: Lunar Neighbor

These items are not on Standing Order

These 60' excess height box cars with modified sides are black with brown sides and run on Barber Roller Bearing trucks. Earth's single natural satellite, the Moon is the only other astronomical body humans have visited. Although only 1.2% of Earth's mass, its gravitation force is responsible for ocean tides. The Moon's apparent size in the sky is similar to the Sun's, allowing for rare total solar eclipses.

## Chesapeake & Ohio<sup>®</sup> Road Number 212

This 70' heavyweight horse car is painted in the tri-color scheme and runs on 6-wheel passenger car trucks. Built as a parlor car in 1912 and converted in the early 1940s into a horse express car, they soon found themselves handling more express mail than horses. By the mid-1950s, they were used almost exclusively in mail service.

## Union Pacific<sup>®</sup> Road Numbers UP 499090/499194

These 50' standard box cars with 8' plug door, no roofwalk and short ladders are yellow with red lettering and run on Roller Bearing trucks. Built in 1957, it belonged to Class BI-50-2 and was used for temperature-critical commodities and food products. It was repainted several times and finally into the yellow and red "We can handle it" paint scheme of the mid-1970s and was used in revenue through the late 1980s before being retired.

## Bee Hive Corn Syrup Road Number SLAX 49104

This 39' single dome tank car is yellow with blue belly and runs on Bettendorf trucks. Built in October 1949, and serviced in 1961, this car belonged to a series of 8 cars painted similarly for the St. Lawrence Starch Company of Port Credit, Ontario. Used to transport corn syrup, they could be found in service between Port Credit and numerous candy and food companies in eastern Canada through the early 1980s.

Road Number 4200****N**  
SCALE 1:87

This 70' heavyweight horse car is Pullman green with gold lettering and runs on 6-wheel passenger car trucks. This car was originally built in 1926 as a horse car, and later repurposed as a baggage car in Railway Express Agency service. Baggage agents preferred working with converted ex. Horse cars because the third door on each side facilitated loading and unloading.

SCALE 1:87

This 50' standard box car with 10' single door and no roofwalk with short ladders is red with black ends and white lettering and runs on Roller Bearing trucks. Built in 1959 by ATSF at the Topeka shops, in a series of 256 cars, this boxcar was used for general service. It was equipped with SL loaders and ATSF Shock Control floating underframe to minimize damage from in-train forces. They were repainted in the mid-1970s and by 1990 the entire series had been retired from revenue service.

Road Number SP 90600****N**  
SCALE 1:87

This 40' standard box car with single door is brown with white lettering and runs on Bettendorf trucks. In the early 20th century there was an increasing need to transport dry goods in bulk by rail. To meet this growing demand, many railroads took excess boxcars and converted them into enclosed hoppers. Hatches were installed on the roof to facilitate loading of granulated loads, such as phosphate, dry concrete, or in this case, granulated sugar.
