NYC ‘April Fools’ 2-pack  
Road Numbers 281795/281964
These 50’ standard box cars with single door are black with brown sides and run on Bettendorf trucks. The paint crew was clearly distracted when they stenciled the reporting mark of this prototypically accurate car. And we ain’t foolin’ ya! The real-life cars actually displayed an incorrect “NCY” and “NYO” reporting marks for at least a decade. Built in 1955, this lot of 500 cars was designed with loading racks to facilitate loading and unloading.
